mond; has the confidence  
and support of planners.

VOL. XIX

RICHMOND, CALIFORNIA, FRIDAY, OCTOBER 6, 1922

No. 40

Councilmen Accused  
Of "Breaking Faith"Charter Amendments  
Not to Be Placed  
On Ballot

Although the city council at Monday night's session "regretted" that they must deny the request of the people to vote on the question of submitting amendments to the city's charter at the November election, the council adopted a resolution denying the request by a vote of 7 to 2, the minority votes being cast by Plate and Ogborn.

The council contended, through the instruction of City Attorney Hall, that legal errors in the amendments, confliction, and inconsistencies not only reflected upon the council, but upon the people of the city.

The charter committee held a meeting yesterday to take further action, and decided to go ahead and frame up a new charter, the same as Santa Rosa and other cities are doing.

The charter committee claim that the coming session of the legislature will not adjourn until next May, and that there will be more than enough time for that body to act in the matter.

It is claimed there were over 1100 names on the petition, and that Councilmen Lane and Watson who promised to vote for the charter amendment, "changed their minds."

It is believed that a petition of

Soft Drink Parlors  
May Be Closed

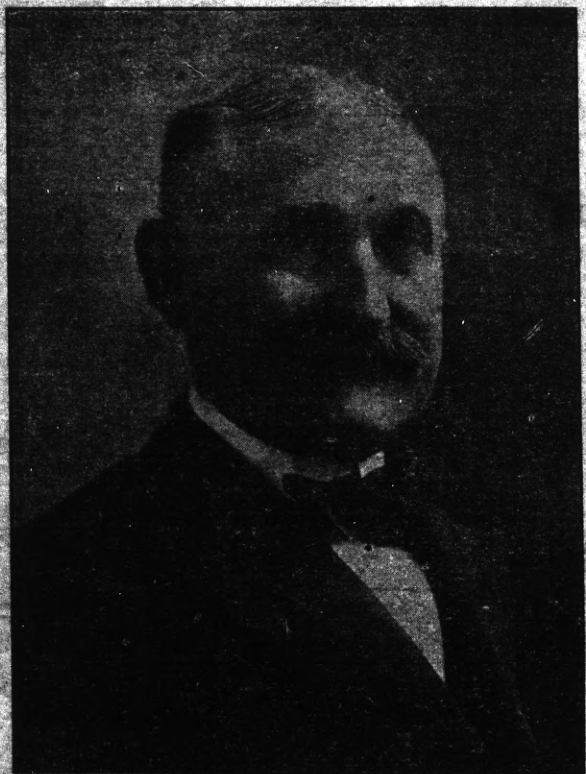

It is stated that abatement proceedings have been commenced four soft drink parlors of Richmond. The places mentioned in suits are the California hotel at the subway; soft drink place at 1118 Macdonald; Standard hotel bar; soft drink parlor at 102 Macdonald. If abatement proceedings are successful in closing these places, it is said, other soft drink parlors will be subject to the law and prosecuted.

## First Rain of Season

The East Richmond foothills are assuming their customary winter garb of green, caused by the heavy downpour of Monday night and Tuesday morning, when over two inches of moisture fell. Reports from interior districts told of damage to dried fruits and bean crops. The storm reached as far south as San Jose. Both snow and rain fell in the mountain districts.

THE TERMINAL is on file in all the public libraries in Contra Costa county and has hundreds of readers.

1100 signers should call for an expression of the whole people and that obstructing and raising technicalities to defer action will create a resentful feeling among those whose votes may be needed to put over necessary bond issues for the proposed public improvements.

Contra Costa County Will Re-Elect  
R. R. Veale Sheriff November 7

While some candidates may organize clubs and execute a number of "political gyrations" to acquire votes, it has little significance in determining the qualifications of a candidate or what the voter will do when he enters the seclusion of his precinct election booth. That Sheriff R. R. Veale should be re-elected to the office which he has so faithfully and satisfactorily filled for so many years, is the consensus of opinion of all voters who are not influenced by "campaign rumors" started by job hunters and persons with doubtful motives. The records prove that Sheriff Veale's administration has been exceptionally effi-

cient and economically conducted throughout the twenty-eight years he has held the office. Why this "discovery" of great expense to the county just previous to election? The county records are undisputed authority that Sheriff Veale has saved Contra Costa county taxpayers thousands of dollars, notwithstanding the false reports recently circulated that foreign extradition has cost Contra Costa county large sums. Why experiment with the untried when the people have a 100 per cent official like Sheriff R. R. Veale to serve them so faithfully and well? Vote for him.

Richmond to Vote on  
\$350,000 Bond  
Issue

November 28, 1922, is the date set for the bond election to vote \$350,000 for public improvements in Richmond. A preliminary resolution was adopted by the city council Monday night to this effect.

The bonds will provide for parks, public baths, city hospital, auditorium and gym.

The bonds are pro-rated as follows:  
Parks and playgrounds \$150,000.  
Public baths, \$50,000.  
City hospital, \$100,000.  
Public hall and gymnasium, \$50,000.

## ALCHEMIST DISCREDITED

Professor Fisher of Yale, who has been abroad investigating the reported production of synthetic gold by a German scientist, and who at first credited the story, is assured by a genuine German scientist that the gold-maker is a fraud with a prison record. Professor Fisher's investigations disclose the fact that the government at one time made serious attempts to produce gold in new ways and did, in fact, succeed in extracting it from seawater, but not at a profit. These attempts have apparently been abandoned.—Scientific American.

## TOO LAZY TO LIVE

Judge Gary said at a dinner in New York:

"Grumblers are generally lazy. Not lazy about grumbling—oh, dear, no! Lazy, I mean, about work. When it comes to a question of work, the anarchistic, bolshevistic, socialistic, communistic grumbler is well represented by the Oriental proverb—the languorous proverb that says:

"It is better to sit than to stand, it is better to lie than to sit, it is better to sleep than to lie, it is better to die than to sleep."

## WORRIED

"She's dreadfully worried."  
"What about?"  
"Her daughter. She doesn't want her to have her hair bobbed, and she's afraid the child is going to grow up into one of those unpopular women."

## BUNGALOWS ON HOTEL ROOF

On the roof of a hotel to be erected in Chicago five bungalows will be built, with gardens and tennis and handball courts.

## Same Old Bunk

It is still the same old bunk. Just watch the game. The democratic candidate for governor is wet. The candidate for senator is dry. They differ as diametrically on nearly everything else. Yet they must pretend to support each other, and the official politicians of their party organizations will profess loyalty to them both. The republican candidate for governor announces it as the supreme purpose of his campaign to kick out the machine of which the republican candidate for senator is the head. Yet he says he will support the candidate for senator, on the issue of his unfitness. Not to be outdone, the machine itself announces that he says he will support the candidate for governor, on the issue of his own extermination. And on both sides, all in the name of the "party principles," though nobody knows what these principles are, and no two can agree what they ought to be. But it is the rule of the game, which the gamblers must observe. Fortunately, the people know little of the rules, and care less. So they will vote, somehow, for the candidates of their choice. "It doesn't mean anything."—S. F. Bulletin.

Y.M.C.A. Committees  
Named For Year's  
Work

The regular monthly business meeting of the board of directors of Richmond Y. M. C. A. was held in the rooms of the association Tuesday evening. Reports of work done were read and in preparation for the coming year's work. The following supervisory committees were named by President Sanford:

Finance—Dr. W. M. Bullock, chairman; Isaac Lester, and R. H. Kinney.

Executive—W. T. Helms, chairman, R. George Harlow, Daniel J. Hall and Dr. W. M. Bullock.

Boys' work—Dr. W. W. Giberson, chairman; F. E. Leedom, J. E. George and J. E. Sniwaldt.

Physical—S. E. Turner, chairman; T. N. Calfee, O. Crigler, and H. G. Stidham.

The making and developing of plans in the various departments of the Y. M. C. A. endeavor will be in the hands of these committees.

## WRONG IDEA OF LIGHTNING

Old Belief That It Never Strikes Twice in the Same Place Has Been Disproved.

The superstition that lightning never strikes twice in the same place is not based on facts.

The cathedral of St. Peter in Geneva, although so elevated as to be above all other buildings in the neighborhood, has for three centuries enjoyed perfect immunity from damage by lightning, while the tower of St. Germain, although much lower, has been struck frequently. Another instance is that of a church on the estate of Count Orsini in Carpathia. This building is placed upon an eminence, and had been so often struck by lightning that it was no longer deemed safe to celebrate divine service within its walls.

For two or three years after its erection the church of St. Michael's in Charlestown, Mass., was frequently damaged by lightning; a conductor was attached to it, and during the following 14 years it was not injured. The steeple of St. Mark's in Venice has a height of 340 feet, and was frequently struck by lightning until rods were put up, after which it remained uninjured.

## FISHERMAN'S LUCK

Puget sound and neighboring harbors have been invaded by mackerel, cod, halibut and other known and unknown species of fish. Thirty thousand pounds of plaice were taken in a single haul, and a 30-pound cod was caught from a wharf near Bremerton navy yard. Fishermen discovered huge quantities of a tiny fish resembling the Norway sardine. This inshore movement of fishes is said to be a great earthquake that disturbed the floor of the Pacific and caused an abrupt change in the currents of the Northwest coast.—Scientific American.

## HER IGNORANT NEIGHBOR

First Woman—How do you like our new neighbor?

Second Woman—I never saw such an ignorant person as she is. She can't talk about anything but painting, books and music. She doesn't know a word of gossip about anybody.—Boston Evening Transcript.

## All Looked Alike to Referee

Clare Horner, official football referee, had something on his hands last Saturday in Alameda when he refereed the Oakland-Alameda game between the high school contestants. There were several colored gentlemen in the line-ups, and as they were all very dark-skinned, Clare had some difficulty in "spotting" some of them for infraction of the rules of the game. The colored players all looked alike to Clare.

Short-Cut Highway  
From County Line  
to Richmond

The movement to establish a highway from the north nose of El Cerrito hill to the Contra Costa-Alameda county line, running diagonally northwesterly to Cutting boulevard at the Pullman shops, would reduce the distance one mile between Richmond and Albany, and greatly relieve the congestion on San Pablo avenue north of county line.

This improvement must come, as traffic conditions demand it, accidents frequently occurring at the sharp corners at Stege and at Cutting and San Pablo avenue junctions.

The convenience to patrons of the San Rafael ferry and to the people of Richmond, Albany, and other eastbay cities would be of great benefit, and as a time saver would in a few years pay for the improvement.

## NOTHING TOO GOOD FOR BOYS

Witty Girl Gives a Variety of Reasons Why She Envises Youngsters of the Present Day.

"It seems to me as if boys are in a fair way of being spoiled," said the red-headed youth. "Look at the mothers, how they beam on their freckled-faced offspring! And the fathers are half bursting with pride in their Scouts! And the big sisters are waiting for a chance to taffy Bub about how grand he looks in his uniform. The youngsters will begin to think they own the earth!"

"That's just it," laughed the witty girl. "Nothing's too good for a boy and there's nothing he doesn't know as a dare. That's why I envy them. They can look forward to growing up into a Babe Ruth or a Jack Dempsey or a Teddy Roosevelt. And when they are grown up they can look back to having been a boy and dreamed of owning the world. I suppose the adventurers and discoverers have been half boy all their lives. It takes a boy's outlook to discover a North pole or trail gorillas into Darkest Africa or puzzle out the secrets of radio. In fact, I believe the nicest men I know are more than half boy."

"Thanks, Virginia. I feel about three-quarters boy right now, myself. Let's scout around and top off a little fun for ourselves!"—Chicago News.

## BLINDNESS ON THE DECLINE

Figures Made Public by the Bureau of the Census Show a Remarkable Decrease.

Improvement in medical knowledge and in education of the public are the contributing causes for a decrease in the blind population of the United States from 57,272 in the census of 1910 to 52,617 in 1920, according to an announcement made by the bureau of the census. The figures show that there are 49.8 or near fifty, blind persons to every hundred thousand population, or an average of one blind person to every 2,000 population. Males predominate over females with about three to two.

Blindness was most common among Indians, with about 200 blind for every hundred thousand in the population. Negroes also had a comparatively large amount of blindness, with sixty blind in a hundred thousand population. Of the geographical divisions, New England has the greatest amount of blindness, with 63.5 to a hundred thousand population, while the least was the west south central states, which had but 41.6 to a hundred thousand.—American Medicine.

## Society Circus

Richmond Elks are making arrangements to stage a society circus, which will be under the direction of a S. F. manager.

It was in THE TERMINAL.

Richmond Activities;  
News of the WeekNew M. E. Pastor  
For Wesley Church

Rev. Frank P. Baker, the new pastor for Richmond Wesley Methodist church will preach his initial sermon next Sunday.

Rev. Baker succeeds Rev. Paul Little. He has served as pastor of the College avenue church of Berkeley for several years, and was former chaplain of the state senate at Sacramento.

Second World Series  
Game Ends in  
3-3 Tie

New York, Oct. 7.—The second game of the world series between the Giants and Yankees ended in a 3-3 tie, stopped in the tenth inning on account of darkness. First game was won by the Giants, 3-2.

It was in THE TERMINAL.

## BUILT TO RIDE ROUGH SEAS

Latest Type of Airplane is Claimed to Be as Seaworthy as Well as Airworthy.

To revolutionize flying is the promise of a new airplane which will soon be submitted to practical test. It is said to be unlike anything ever constructed before and is nearly a ship with wings, according to reports from London. The plane is so constructed that it will not only float in calm waters, but it is claimed will be able to ride the roughest seas with the same security as an Atlantic liner. It is claimed that it will be equally airworthy. The hull is long, light and slender, without bulkheads. The elasticity of the hull which will make this possible is the outcome of many years' scientific research. The new machine will be a vast improvement on the present type of amphibians. The experimental machine carries but seven persons, but designs for larger ones have already been made. The airplane will carry four or six engines and will be capable of traveling 100 miles an hour. It will be equipped with fog horns, anchors and riding lights. When not in the air it can travel on the water and thus accompany a battle fleet under all conditions. Machines designed chiefly for commercial service will be able to cross the Atlantic ocean in less than 48 hours, it is claimed, carrying a heavy load.

THE TERMINAL, Richmond's industrial newspaper.

Shipping Business Is  
Lively at City's  
Wharf

Business is good at the municipal wharf this week, is the report of Harbor Manager Jackson, who says the deep dredging is bringing results, and that from now on many sea-going vessels will call at this port.

The motorship Bullaren, flying the Swedish flag, docked at the municipal wharf Tuesday and took on a cargo of 14,500 cases and 473 barrels of oil products for Australian and New Zealand ports.

The steamer Haraka, capacity 10,000 tons, left Saturday with a cargo of case goods for Australian ports.

Several other vessels are due to take cargoes from Richmond's municipal warehouses to foreign points in the Orient.

Chicago Inn Finally  
Closed Up Tight

The Chicago Inn, of notorious fame, at 430 B-street, has been closed under the redlight abatement law and Sheriff Veale has been ordered by Superior Judge McKenzie to place a padlock on the joint for the next 12 months.

Evidence that gambling, booze selling, tenderloin habitues of both colors, and a general bawdy joint was conducted at the place, which was formerly managed by a colored gem'n by the name of Wagner, who called the place a "club."

## How's Your Hat?

When your hat becomes dingy or out of shape don't "scrap it." Take it to Wilson & Johnston, 317 4th street, who will transform it into its original attractiveness—a new hat. Ladies' or gents' hats re-blocked and made bright and clean. We only ask a trial. Hand us your old hat. Pre-war prices.

## Hotel Arrivals

Imperial—William Goul J. Tiffin, Ohio; Jacob Schreck, George Reed, Charles Strauss, F. J. Meier, Wm. Fencannon, and Ed Hansen, all potters from Ohio.

THE TERMINAL, oldest newspaper in Richmond.

Anniversary  
Sale

This is the greatest sale of the year. A birthday party known far and wide for its money saving. Each year this sale assumes greater force in the community and the number of people looking forward to it steadily increased.

READ THESE REPRESENTATIVE ITEMS. TYPICAL OF HUNDREDS OF OTHERS.

## SAY IT WITH FLOWERS

Mabel—Why do you suppose Harry is sending just one rose each day?  
Martin—I suppose he is saying it with flowers, and you know he stutters.

## BEST OF REFERENCES

When the language of business is applied to the practices of politics, as in this case, the effect may be instructive as well as startling.

Two darkeys came up to the outskirts of a crowd where a politician was making a campaign speech. After listening to the speech for about ten minutes, one of them turned to his companion and asked, "Who is dat man, Sam?"

"I don't know what his name is," said Sam, "but he certainly do recommend hisself most highly."—Milwaukee Sentinel.

## EXECUTIONER IN HARD LUCK

Pedro Gonzalez, official executioner of Barcelona, has gone broke. There have been no nice little murders around his home town in nine years, and so he has been evicted from his cottage by his landlord. During the good old times, when murder was a pastime, Gonzalez was a comparatively wealthy man. His pay in those days was literally \$20 per head.

After hanging on to his office without a single execution for nine years, Pedro has "turned it up." "How can I live if there's nobody to die?" Gonzalez pitifully asks.

## BUILDING AND LOANS

The first building and loan institution was organized in Philadelphia in 1831, and Philadelphia is today the greatest and wealthiest building association city in the United States. There are 2,200 in Philadelphia, with assets or resources upward of \$350,000,000 and over 750,000 members. These associations were helpful in completing the purchase of close to 75,000 properties in Philadelphia last year alone.—Thrift Magazine.

## IMPROVEMENT

"Are you farmers going to improve politics?"

"Hahn't thought of that," replied Farmer Cornstossel. "What we're expectin' is that politics will improve the agricultural business."

Legal notices must be paid for on or before delivery of affidavit of publication. No exception to this rule.  
For the cause that lacks assistance, Against the wrong that needs resistance, For the future in the distance, And the good that we can do.

FRIDAY, OCTOBER 6, 1922.

## A Hard Nut to Crack

Ohio, Indiana and Illinois are entirely "union states," so far as coal mining is concerned. During 1920—claimed to be a typical year—the number of working days were only Ohio 188, Indiana 192, Illinois 213. In other words, the coal miner in Ohio was forced to lay off 124 days during the year. The Indiana miner lost 120 days; the Illinois laborer 99 days. Those laborers were likely anxious for the work. The wages of those lost days would add quite a bit to their hard lives. More than that there is a decided national loss.

The strength of a nation depends upon the profitable employment of its citizens. An idle man is a burden to be carried by his fellows. He is a threat to the community; his ill-nourished children grow up in the ranks of those who can not be educated.

The Union is stated to have contributed over a million dollars to support the unemployed at Mingo, W. Va., during the last strike.

One remedy would seem to be automatic. It would be if it were not for the relief furnished by the union. The unemployed would drift away and find other employment. Many of them should find places in the country either as laborers or as tenants. The numerous uncultivated although arable tracts of land would then be cultivated, and become a source of wealth to the community.

## Poor Devil

According to the latest financial estimates, Henry Ford is going to have one duce of a time getting into heaven.

## It Sounds Good

The U. S. fleet is busy rescuing Greeks, and every other nationality, from Smyrna. Now, that is what war vessels should be used for.

## Who Absorbs the Difference?

Secretary Hoover fixed the price of coal at the mine's mouth at \$4.50 per ton. Look at your last coal bill, then write and ask your congressman what becomes of the difference.

## Great Britain to Kemal

Don't you dash to put your foot over that line!

Kemal—Aw shucks! Puts one foot over.

Great Britain—If you put your other foot over I'll knock your block off.

Kemal—Aw shucks! Puts his other foot over. And just keeps on doing it!

## COSMOPOLITAN CROWD

The total registration at Harvard this year is 6,073. Of this number 4,803 are from the United States and its possessions. The other countries represented are: Asia Minor, Australia, Austria, Belgium, Bermuda, Brazil, British West Indies, Bulgaria, Canada, China, Costa Rica, Cuba, Czechoslovakia, Denmark, Dominican Republic, Egypt, El Salvador, France, Germany, Great Britain, Greece, Holland, Honduras, India, Italy, Japan, Korea, Mexico, New Zealand, Nicaragua, Norway, Palestine, Panama, Peru, Rumania, Russia, Siam, South Africa, Sweden, Switzerland and Turkey.

## We All Know That

"That old motto 'Business before pleasure,'" said Jud Tunking, "means nothing more than in this world you can't enjoy yourself unless you're got the price."

## Albany Activities

## Thousand Oaks Masons Visit Santa Rosa Lodge

A delegation of Thousand Oaks Masons and their wives attended a meeting of the Santa Rosa lodge Saturday, Sept. 23, where they assisted in putting on ritualistic work of the order.

All report a splendid time, being royally entertained by the Santa Rosans, who banqueted them and then "showed them the sights."

Among those who attended were Mr. and Mrs. O. C. Marr, Mr. and Mrs. Fred H. Crane, Mr. and Mrs. Louis White and others.

## Judge Paul's Schedule For Speeders

Judge John Paul offers the following "bonus" to violators of Albany's speed and traffic laws: Hitting it up over 30 miles per hour, \$5.

R. R. crossings, over 15 miles, \$1 per mile.

Plain 30 to 35 miles, \$5 to \$10.

Extra hurry-up 35 to 40, \$15 to \$20.

High voltage speed maniacs—40 miles and over, no fine—JAIL 3 to 10 days.

Four violators are now in hock; two for speeding and two for crossings. Five cases are pending.

## Wedding Bells For John and Madalina

Mr. John Pitta and Miss Madalina Aplaton were married at the home of John Macchia, Key Route boulevard, Sept. 26, 1922.

John had become almost discouraged at the non-arrival of his prospective bride who was much overdue from sunny Italy.

He was a happy guy when he received a cable via The Travelers' Aid that Madalina was en route.

Through the assistance of Mrs. Christina Poggi, she was escorted to the Macchia home where the delightful romance terminated in wedding bells for John and Madalina.

In order to "speed up" the happy event, Mrs. Poggi served as bridesmaid and host Macchia acted as best man. The minister did the rest.

The happy couple will establish a home in Albany, and everything is now "jake," says John.

## THE BEST GLASSWARE

According to tests of the bureau of standards, this country makes better chemical glassware than has ever been imported with respect to resistance to chemical attack, power to withstand sudden cooling, and mechanical strength.

## NO MOWER

"Pa's peeved."

"What's the matter?"

"He was going to cut the grass to-night."

"Why doesn't he?"

"The neighbor came over and took his lawn mower back."

## SUMMONS.

In the Superior Court of the county of Contra Costa, State of California.

No. 10236  
Winifred Eleanor Grisson, Plaintiff, vs. Robert Matthew Grisson, Defendant.

Action brought in the Superior court of the county of Contra Costa, state of California, and the complaint filed in the office of the clerk of said county of Contra Costa.

The people of the state of California send greeting to Robert Matthew Grisson, Defendant.

You are hereby directed to appear, and answer the complaint in an action entitled as above brought against you in the Superior court of the county of Contra Costa, state of California, within ten days after the service on you of this summons—if served within this county, or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said Plaintiff will take judgment against you for any money or damages demanded in the complaint, as arising upon contract or will apply to the court for any other relief demanded in the complaint.

Given under my hand and the seal of the Superior Court of the county of Contra Costa, state of California, this 16th day of August, A. D. 1922.

(SEAL) J. H. WELLS, Clerk. Aug 25 Oct 27-101 By S. Wells, Deputy.
